EXPANSION JOINT STRIPS TO SEAL JOINTS WITH THREE-DIMENSIONAL MOVEMENT

MIGUA is one of Europe's leading experts in the design, manufacture and installation of expansion joint systems.

MIGUA expansion joint systems serve to cover, close and seal expansion joints. Our products satisfy the most rigorous standards in quality and safety and are widely used in large-scale construction projects such as airports, train stations, industrial plants, park buildings, shopping centres and hospitals. Every day, our experienced teams do their utmost to ensure that our outstanding product quality and innovative approach make your building project successful. We are not satisfied until you are satisfied. Because our guiding principle is: MIGUA – you first.

MIGUPREN

MIGUPREN FlamLINE

For more information please visit www.migupren.de

Your tailor-made system solution – for whatever course the joint takes

For example MIGUPREN FlamLINE 40:

	FlamLINE 20	FlamLINE 40	FlamLINE 100 G	FlamLINE 240 G
Joint-lateral ocillation max. (A)	± 20 mm	± 40 mm	± 100 mm	± 240 mm
Joint-lengthwise movement max. (B)	± 10 mm	± 20 mm	± 50 mm	± 120 mm
Joint-verticalwise movement max. (C)	± 15 mm	± 30 mm	± 75 mm	± 180 mm

* Material guarantee by German Confederation of Skilled Roofing

** Universal construction test certificate from the material testing institut of Leipzig (MFPA) is available.
